**Mediaeval & Renaissance Manuscript
Collections at Oxford Colleges**

**SECTION V: "MEDICA" & NATURAL SCIENCES
CHRIST CHURCH**

Overshadowed for too long by the glories of the Bodleian, the libraries of the older college foundations in Oxford are emerging as a rich and little explored source for mediaeval scholars.

Since many of the colleges preserve large proportions of their original mediaeval holdings and founding bequests, these collections present vital evidence for our understanding of the intellectual life of one of the world's oldest universities. These are the complete mediaeval manuscript collections of these colleges, and each college may be purchased separately.
