SCOPE AND CONTENT NOTE

The *Chronological Correspondence Series* consists of material from the John Foster Dulles Papers and the Christian A. Herter Papers located at the Dwight D. Eisenhower Library, Abilene, Kansas.

University Publications of America has microfilmed the collection as it is arranged at the Eisenhower Library. The series is divided into folders, and these folders are arranged in reverse chronological order for a given month. The contents of each folder are also arranged in reverse chronological order. Each folder contains a "document withdrawal sheet," which itemizes the documents that have been removed from the folder due either to national security considerations or privacy restrictions by the Eisenhower Library. All of the material currently available has been filmed in its entirety.

John Foster Dulles Chronological Correspondence Series

The John Foster Dulles Chronological Correspondence Series is contained in reels 1–12 and part of reel 13; it spans the period from December 1952 to March 1959. The extensive files include correspondence, memoranda, and working papers detailing the daily and long-term functioning of the State Department and the formation and implementation of foreign policy decisions.

Christian A. Herter Chronological Correspondence Series

The Christian A. Herter Chronological Correspondence Series is contained in the rest of reel 13 and reels 14–24; it spans the period from February 1957 to February 1961. This series includes material from Christian A. Herter's tenure as undersecretary of state, February 1957 to March 1959, and as secretary of state, April 1959 to January 1961.

The series consists primarily of outgoing correspondence and memoranda of the undersecretary of state and the secretary of state and his various staff members, principally Max V. Krebs and Harry Stimpson, Jr. Additional material pertains to the personnel matters of the State Department. The correspondence, memoranda, and working papers were utilized by the President and his staff in their policy formulations.

REEL INDEX

The frame number on the left side of the page indicates where a specific file folder begins. The contents of these folders are typically arranged in reverse chronological order, while the folders are in reverse chronological order for each month.

In the interest of accessing material within folders, this index denotes the major substantive issues, reports, key policy matters, and individuals under the category *Principal Topics and Individuals*.

SUBJECT INDEX

The following index is a guide to the major subjects of this collection. The first Arabic number refers to the reel, and the Arabic number after the colon refers to the frame number at which a particular subject begins. Hence 3: 0934 directs the researcher to the subject that begins at Frame 0934 of Reel 3. By referring to the Reel Index that constitutes the initial section of this guide, the researcher can find the main entry for this subject.
